03 January 2015

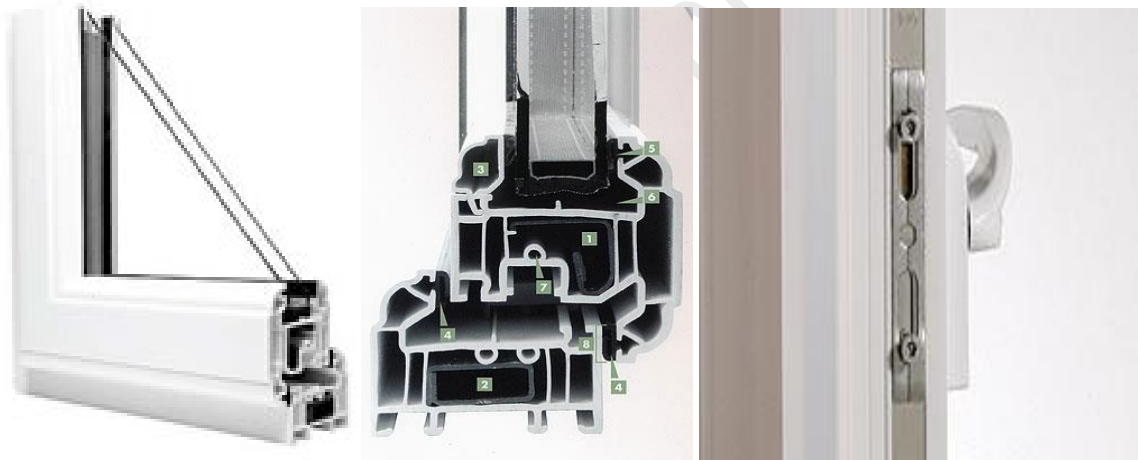

## Example

Dear Client,

Thank you for the kind invitation to quote for the installation of PVCu products

I am pleased to quote as per the attached schedule and request that you carefully check the specification & designs to ensure they are what you require.

We install the Rustique & System 10 profile of windows & doors from WHS Halo. Please see the attached e-brochure on these top specification products.

I have quoted for A rated energy efficient windows. The benefits of an A rated window are that it insulates better than standard double glazing. These highly efficient argon gas filled glazing units also benefit from a warm edge spacer bar. This results in less condensation & less energy being required to heat the house as more of the stays in for longer. The U-value of the new windows would be 1.4 which compares favourably to the existing standard double glazed which will achieve a U value of 2.4 so they would be about 60% more efficient at thermal insulation.

Will & Emily Timlin trading as Lewes Home Improvements,

Security on our windows & doors is also excellent. The windows achieve the BS7950 enhanced security standard & benefit from the MACO security guarantee.

In the unlikely event of a break-in through our window hardware Maco SECURE will reimburse any insurance excesses up to a maximum £500.

Installation is carried out by experienced installers to a very high standard of cleanliness. We trim with a PVCu architrave internally. We seal with neutral cure silicone externally. Naturally the price includes for removal of all rubbish. Old frames and glass are recycled (or in the case of timber used as fuel for my woodburning stove!)

We are pleased to quote as follows:

Window

£Example Inc VAT @ 20%

**Total fitted cost**

**£Example Inc VAT @ 20%**

I do not take deposits but request full payment on completion please.

Specification for all quotes is designs as shown on above schedule, all windows in white PVCu, both with fanlight openers, all windows with night vent position locks with key locking handles, fire egress hinges to all side opening windows,

Your right to cancel - Cooling off period.

VAT reg no. 125246239

The customer may cancel the order during the cooling off period which shall run for seven days from midnight on the day the order was signed by the customer (excluding Sundays or bank holidays) where contracts are negotiated away from business premises & by an unsolicited visit.

Any cancellation must be given by written notice by either party.

I guarantee my windows & doors comprehensively. Please see attached guarantee statement for details.

In addition to my comprehensive guarantee I also insurance back my guarantees through Quality Assured National Warranties [www.qanw.co.uk](http://www.qanw.co.uk) This important insurance covers you the customer in the event I cease trading. You will receive an insurance certificate around the same time as your Certass building regulations certificate.

We are registered with Certass so we can self certify our work as complying with the building regulations. It is important to have a certificate of building regulations compliance as it demonstrates that the installation is safe in respect of safety glazing & fire escape. You will also need this if you decide to sell the property.

If you would like to accept our quote please post or e-mail me back a copy of the quote signed & dated with a note of any amendments you require to be made.
